Performance Catheter

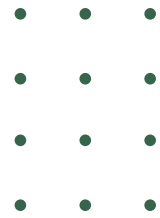

Pediatric catheters

Shaldon Catheters

Double Lumen

Product Details

Technical data

Lumen	French	Lumen length (in cm)	Lumendesign	Extensions	Box size
Single	7/8FR	10/13/15	straight	straight	10 sets/box
Double	6,5/8,5/10FR	5/8/10/13/15	straight	straight	10 sets/box
Double	6,5/8,5/10FR	5/8/10/13/15	straight	curved	10 sets/box

Set components

- (1x) Catheter
- (2x) End caps
- (1x) Tissue dilator
- (1x) Syringe
- (1x) scalpel
- (1x) Introducer needle
- (1x) Nitinol-guide wire
- (1x) Suture „Type Monofil 3-0“
- (1x) Needle for local anesthesia

Fixation device for hemodialysis catheters, PICC's & CVC's

CathFix

Product description

CathFix sets a new standard for catheter fixation with its plaster-based technology. Safety is paramount, as the system fixes the catheter firmly to minimize movement thus reduce the mechanical stimulus to the catheter exit site.

Application is fast and simple: the CathFix plaster is simply applied to the skin and fixes the catheter extension lines. This innovative solution not only offers reliable fixation, but also comfort and convenience for patients and medical staff. CathFix sets a new standard for catheter fixation of **hemodialysis catheters, PICC's & central venous catheters** by combining safety, speed and simplicity.
